### **NERWHA FALL SYMPOSIUM, 26 OCTOBER 2013**

As the program that appears below indicates, the symposium “The Hispanic Americas in World History, will be held on **Saturday, 26 October 2013 in Memorial lounge, the Waterman Building, the University of Vermont.** You can go to the UVM website <[www.uvm.edu](http://www.uvm.edu)> to find out about the university and to download a map of the university and driving directions to it.

Listed immediately below is a list of nearby hotels and motels. Because this is the end of leaf-peeping season, we suggest that you make a reservation early. We favor the Sheraton (802-865-6620), which is within easy walking distance of the university (but ample free parking is available only steps away from the symposium site). A special highlight of the symposium will be the keynote address delivered by Felipe Fernández-Armesto. Anyone conversant with world history knows the rich contributions that he has made in the field (currently his list of published books stands at 33 and will be 34 when we meet in October). Professor Fernández-Armesto is well known as a stimulating (and entertaining) speaker, and his address will focus on his current research and forthcoming book. Please plan to be there.

As has also been the practice at the last two NERWHA symposia, lunch will be included in the registration fee of \$25 for members, \$45 for non-members, and \$12 for matriculating students.

A registration form will be published shortly on this website well as a handsome down-loadable flier.
